# Making a big difference where you live was never more within reach.

As part of the 2013 federal budget, the First-Time Donor's Super Credit (FTDSC) gives first-time donors and those who haven't claimed a charitable donation in the last five years an extra 25% on their tax credit for charitable gifts. The FTDC is applicable to any single cash donation of up to \$1000 made by an individual or couple between now and 2017.

A donation to United Way boosted by the First-Time Donor's Super Credit means a healthier Canada for us all – and more money in your pocket after taxes.

## **Under this time-limited incentive:**

Donations up to \$200 receive a 40% tax credit.

Donations between \$201 and \$1000 receive a 54% tax credit.
